

We made the first type combine. Every time one breaks down I'd be there to fix it. If a tractor break down we'd fix it ourselves, right in the shop. There's so much I done for that man. He appreciated it.

(How old were you when you met your wife?)

I was 21 years of age when we married.

(Where did you meet her?)

In Gary.

(Is she Arrapahoe?)

She's Arrapahoe. I'm just half Arrapahoe myself. My father was white and my mother's Arrapahoe. She's buried northeast of here, about two miles north, but my father is buried in Arkansas. Close to Siloam Springs. I've got a half sister living in California. She came down here about a year ago. I didn't have to look for her, she came to look for me. She heard I was sick. And I had a half brother. He got killed when an acetylene torch exploded on him.

RELIGION:

So today there is many things can be said but I cannot remember all those things. Such as the Indian, Arrapahoe's sun dance. It's mentioned in the Bible where God says he's gonna bring forth his people through an open sepulchre. There are things in there that pertain to life. That they use them days. I don't know what these people think. When God created different forms of worship, he himself pointed to millions of people how they should worship. And everything that Indian does white man is gonna take away. What they gonna take away from Indian. The only thing that they can take away is ? I don't know what else they gonna take. They can't take away nothing else.
