

about it. Let me tell you this, no man can destroy this medicine. Anything that God makes, don't call it unclean. And now today the scientist say that it is unclean. I don't believe it. How can they say it's no good? How do they know? The instruments they got today they can falsify. For instance, this modern day stuff they use on people to make them tell the truth. It's harmful too. When they say things are unclean, they got to answer for that. There's a lot of things they say that is coming back to them. They gonna get punished. So modern day people better look out. The United States is gonna get awful whipping. If they get too far away from God.

(How do you use the peyote?)

You go down to Texas.

(Do the Indians go down there?)

There's some Indians down there. They's some Indians even down in Old Mexico. It's used down in Old Mexico.

(Do the Indians go down and get it or do they people ship it up?)

They Indians ships it in. A lot of people go down there themselves.

(Have you ever gone down?)

Went down one year. Got some, brought it up, give it to friends, church members. Didn't cost them a dime. But today the white people wants this for themselves. Whenever they get that they'll make money on it. When the disciples went out, He told them, "Don't take nothing but shoes and a staff." The staff was to protect themselves from animals or different people. After He was crucified He told them, "Just take
