

he bit you. Is that it?" 'I said, "Yeah." All right, he doctored me that night. He doctored me with his mouth. He suck on my finger where he bit me. And he took out that poison with a spider web. When he doctor, you know, I could see that spider. When he pull it up, that spider web, that's what he poison me with. He doctor me up and he cured me. I got well, I got well.)

(Well, that's wonderful. Oh, I wanted to ask you to finish telling me about when you got spider bit.)

Oh, a spider went and bit me--see, I had shoes on like this. Anyway, it bit me right here.

(On your foot?)

Yeah, and I put Vick's on and I tried to--I thought it wasn't a poison spider. I tried to--

(Interruption)

(Let's see the spider bit you on the foot.)

Yeah. And so night came and I start supper. Like he said, it was like something was coming close to my breathing--my heart. And all my body just got weak and fever came on, fever. And seems like I can't breathe. And my father was over at my brother's home. And I told him, I said--we weren't no cars then. I told him, "Cecil, I'm getting sick." I said, "From that spider bit me." I said, "I'd like to get to my father so he could fix me up. I'm really getting sick." I said, "I'm getting dizzy and I can't hardly breathe." So how far is it to Carnegie. He had to hitch up our buggy cause we didn't have no car. It was just beginning to get dark and he caught the horses and--we had good horses, you know, them trotting horses. He hitched them up and then we went to Carnegie. (Interruption)
