

Mechanical College twice, but I come back. Yeah, it use to be A & M.

Mrs.: And he started workin' in the store at that time, didn't you? When you came back and he's been here ever since. And that was in 1909. He's been in this store since 1909 himself.

(Well, are you from Oklahoma?)

Mrs.: No, I'm from Texas. I'm not--

Mr.: She just got stray up here and we got acquainted. She was out huntin'. Oh, I'll tell you that story.

Mrs.: Oh, now don't George.

(unintelligible)

Mr.: --we were telling a story about some Indian over east part of the state. He said there was a Truman air ship one time and there was about 30 or 40 Indians that claimed that he was their father. Finally they ask him how come so many Indians claim your their father? He said, "Me honey heep."

Mrs.: He got out of high school, went to work here in the store, and that's why you have been associated with the Indians himself, since 1909. That's right.

Mr.: Use to do big teebol business.

Mrs.: Yes, in the early days they did.

(Big what business?)

Mr.: Teebol, that's Kerby. Teebol they claim, now I've had different stories about that. I've always heard that teebol was paper.

Mrs.: Well, it means chargin'.

Mr.: You do business see, and you put it on paper. You didn't have any word for credit, and the Comanches said teebol.

(When you started out, you did credit business?)

Not much, not me. My father did.

(But you stopped it?)

No, he stopped it along time ago, before he died. He died right where your sitting. Right there where your sitting.
