

she was just starved for attention , and she still is, see. She hasn't ever gotten over it. And I don't suppose she ever will. She's quit runnin' out to meet people, like she did, but she - - Of course now, Donnie, anything that way, she picks it up and follow after Sandy, you know. Of course, she never had lacked for attention. See. And she doesn't try to get attention. She comes to me for attention more than anybody else. But Sandy, I don't think she'll get over it. Her feet have gotten better. You know, they had her feet to where her toe either be that way, or down underneath, like that. And her big toes had been smashed flat. And it was all infected and everything. But now - - that's the reason I let the girls go barefooted, you know. So - - and you can't let one do something, without the other. See? So, Sandy's feet are in pretty good shape now. But I don't know - - don't think she'll ever get over the treatment she got. You being left and everything. I don't think they ever get over that. I had something else I was - - Oh, did you ever find any of those, well most call 'em weeds, you know? That I was tellin' you about that they use for medicine and things??

(No, we were gonna come over here one day and get you to show us.)

Well, I don't know how many of 'em are left. Now out of the ones around here now, is the pepper grass - - that's all around here, And then, lamb quarters here. And now it's too dry up here - - the sour dock. Now there's two different - (What is this pepper grass used for?)

Now, come on out here in the yard if you want to, and I'll show you some of these things that are a round here, around here at the house. It's too dry for sour dock, and most of these things. I know it is for keeping medicines and stuff. This time of year it's too dry, but in early spring, it's real good. Right now, it would be bitter as gall - - that's dry lettuce. This is lamb's quarter. And then - - this is pepper grass. This is real good for salads. It's a little bit tough
