

He just, just...

(Or all of them.)

He just took care all of them. Just take care of all of them when he begin to be kind like a manhood, why, he just take care of all the Comanches that, that he knows, and some of the Kiowas that he captured them and they raised by the Comanches.

(How do they make him a chief? How did he become a chief?)

Well, how come he come to being a chief is, see, he was a brave man. He was a brave man and uh- he was a respected man, they all respected him. While he, on the other hand, he was honest man. He had uh- he was pretty well known and everything. Even such as those American Native Church, too, you know. That was his favorite one, too. Favorite, member that he was, too, and so that's how come they just took him as chief because he just brave in everything. And when he say this, why he's going to get it done. That's how come they took him for a chief.

(What's that you told me the other day, that he had Indian name that white people changed to Quannah? What was his Indian name?)

What, that - that...

(Or was it just Quannah?)

Yeah, it was just Quannah, Quannah.

(Does that have a meaning in Commanche?)

It means uh- smelling of anything.

THE MAN WHO STOLE HORSES OR ANYTHING HE WANTED, INCLUDING ANOTHER MAN'S WIFE.

(Then what about the, you just mentioned, fellow that stole horses. Who is he?)

That's my uncle. That's my-dad's brother. His name is (Comanche name).

(He's another one that was in that...)

Right.

(Yeah.)

Uh-huh. He had uh- (word unclear) all buckskin suit on.
