

cousins of your husband, or your husbands, too? You ever heard of that? Let's say the cousins, the male cousins of your husbands.)

Yeah.

(What would you call them?)

You could, in Indian way, you could have called them a husband, too.

(Uh-huh.)

For instance, now alright she's my first cousin, in Indian way she's my sister.

(Hum.)

We call her that one another we are sisters. Which we are first cousins, but we could call them our sisters in Indian way. That's the way Indian is.

And like the cousins, them two might be cousins, they could call one another brothers. That's the way it goes.

(Who are the grandparents that raised you? What are their names?)

The grandparents, my mother names uh- Four Wife. And my other grandparent name is uh- Bah-page (spelled phonetically). Uh-huh. Yeah.
