

breed...half-breed Indian.

(He was a pretty good size man wasn't he?)

Well, he's a pretty good...big man all right. We don't hardly go around that way much. That's the reason I don't know much about him.

(What do you mean go around that way?)

Down toward Cache where he lives...where he used to live.

(What group was he from, what tribe?)

He was a Quahadah. Quahadah-Texas. ((laughs))

(Was he a chief?)

Yeah.

(Was he a chief of all the Comanches or just the Quahadah?)

Chief of all the Comanches.

(When did you see him?)

Well, I saw him down here at Ft. Sill one time, that's all. I wasn't too old at that time.

(Do you remember what he looked like, how he was dressed?)

Yeah, he wore his...dress up.

(How did he dress then?)

Well, he dressed just like us now. One time I saw him out with his Indian clothes on.

(Did he have any children?)

Yeah, he got a bunch of them, children.

(Do you know if any of them are still living today?)

Well, I don't know if any of them are still living today or not...that Birdsong Woman, I don't know whether she still alive or not. I know Baldwin Parkers dead. _____ Parker. I don't know if whether she still living or not. Those two I know they's dead...and I don't know where this Birdsongs still alive yet or not.
