

Grandpa was a Judge for awhile over around Talihina. And that's where my father was born - over there, 'round Wister. Of course that Indian Territory then.)

Yeah. That's close to Muskahoma. Well, it's been a long time since I've thought as much about it as you've -

(Caused you to think?)

Yes. - And I haven't given a very clear story of it, because I made no record of it. Now if I had my old - copies of the old Hugo Daily News, we'd have something that is worth while. But I am hoping - but I have no way of contacting Miss Wright. As a matter of fact, I haven't seen her in a good while. But the first time I see her, I am going to ask her if she has the papers of those photographs.

Well, next week, being 4th of July in February, I will - well I will in Norman, I am going to work then after Tuesday in Oklahoma City at the Historical Society instead of coming out. So I'll be talking with her - I'll see the microfilms. I want to go through that paper. And see some highlights and get somethings in mind that we can talk about later. I'll get some topics from the newspaper that you'll remember things about.)

That will be fine. But let me take a look (static interference. Not Clear..)

(Un Hunnh. This copy you have just handed me is April 26, 1944. This was during World War II. It says "Patton asserts Britain - America to rule the world - Armies to subject - 1943. You've got a copy of the Caddo Star in here. Let's see what the date on it is. This is December 19, 1903.)

The man that used to publish that was my brother-in-law.

(This one is May 1st, 1944. It says, " Germany has shifted 50 Divisions to invasion front. ")

That was 23 years ago. That's got some whiskers on it itself.
