

Day and Night.

(Yeah, Day and Night, what was he doing you was telling me about, he's a Cherokee?)

He's a Cherokee. He's a full blooded Cherokee. And he's one young man, to me, an example, a lot of youngsters should follow I believe he is, in this part of the community one of the best managers I've seen in a long time. Here he goes to work at 8:00 at night--works all night long, then he comes in, oh around 7, or 8:00 the next morning--tired, should be. Maybe gets an hour or two of sleep. He's up in his truck going back to the hills, cutting timber to make ties. Then back at night and back to work again. Boy I mean--

(He's a hard worker isn't he?)

He's a hard worker.

(That'd be hard working for anybody, whether he's a Cherokee or not.)

Day and Night man, you don't see very many Cherokee's get on the ball like he does. But boy, he's setting an example for a lot of youngsters.

CHURCHES AND GATHERING FOR SINGING AND VISITING

(Is there still a lot, there's a lot of churches over here in this part of the country, a lot of Indian churches, aren't there Calvin.)

There's a lot of Indian churches.

(Are they pretty strong?)

Pretty strong, yeah...There not anything like they used to be.
