

T-173-1

you, he'll pick up dirt and throw it on the floor and talk, "This dirt bury that man." That's what it means. Just picks up some dirt and throw it on the ground and say, "Bury this man." You know, you bury with dirt, that's the meaning of that.

(In other words anybody can do that? It's not just to witch..)

Yeah, just anybody. When they mad. If they know what it is but a lot of people dont know what it is. Just like anybody could. But most of these young people, they don't know nothing about it. It's our..Joey's age, he understands it because he heard it from the old peoples. Me and old peoples like me, lot of Kiowas and older people my age, they do that. If they don't like you and get kind of mad at you and do something, just stoop over and pick up dirt and throw it on the groud and say, "Bury this man, you dirt. Bury that man." Say that to that dirt. you know, I think it's bad ain't it? If you get mad enough at somebody and they die and here that dirt covers them. That's what it means.

(When you're doctoring, is there any particular way you have to stand, a direction?)

No. Just anyway. But I always lay their head mostly on the west, towards west.

(How come?)

I don't know. That's what my mother told me to do. Put their head west.

(If they have to stay here for a few days is there any special foods they can or cannot eat?)

No, they just eat anything. It don't make no difference what they eat.

You ain't got certain kind of food to feed them. They just eat anything what we eat. But the white peoples, when they doctor anybody in the hospital they have to have all liquid stuffs but us Indians, we don't.

We just feed them anything.
