I don't care who comes to the house and tell her, "I want you to doctor me." She won't do it. Because she gave it to me. She ain't going to do it. She say, "Ask her she's a doctor." She say that to anybody but you know, I never did doctory anybody till my brother got real sick, he was about dead and my mother, "Doctor him, you're the doctor. I said, "You supposed to do that when anybody ask you to doctor. That's what you got that medicine for." I said, "I didn't get. you gave it to me." She said, "Well, that's what I taught you to do. When anybody comes to your house and tells you, doctor me doctor him or her you got to do it. Don't ever refuse anybody like that."
