

Of course, I ain't going to ask the peyote, say, "You peyote, forgive me for my sins." It don't go that far, that peyote don't go that far. It can't, because God and his beloved son is our creator. He's the one made us.

(The peyote didn't?)

No. It didn't. So, therefore, I said the peyote, as far as I go, give you some kind of a - - you taking quinine, you know, for your cold, or four-way tablets - -

( Like a medicine?)

- - Like a medicine. But it gives you a good feeling in you, you know.

( I heard that the Indian name for peyote among a lot of Indians means Medicine.)

Yeah.

(What is the Comanche word for Peyote?)

"Hus."

( Does that have any - - )

That's peyote.

( Does that have any other meaning?)

no.

( Just that?)

That's the name of that herb, peyote.

( I've seen on gourds and feathers they use in meetings - - on the fringes - - crosses, do they have any - - ?)

They put anything on there.

(hat doesn't have any special meaning?)

I don't know. I - - not to my knowledge, I could put anything on there I want to.

( Just what pleases the person.)

Just to make it look good. That's all I could get out of it.

( When I saw that, I didn't know id they were combining, being Christians and members at the same time?)
