

(Well, is this another name for those bundles?)

Yeah this is another name. But "Grandmothers" is what we call them.

(But you can call them-- I see.)

Ten Grandmothers. But these two here, these *du kitali*--this *dzaidetali*--these twins--one of them is in one bag and the other one's in (another).

(I see. And you have one of them here?)

Got four of them. (James has four of the Grandmothers.)

(Well listen, let me ask you this, how do you feel about talking about the Grandmothers. Is there any--I mean you don't seem to mind talking to me about it--I just wonder if there is any rule against telling people about it.

These outsiders--nobody can't--white people like you can't go in there. But then they took all that away. Cause we got a lot of half-breeds now in our families, and we can't stop them-- If they want to
