

Pawnee woman and her brother.

(Who is the other?)

The other one - her name is Ida Tomah. She married a man named Tomakiller and she lives in Walters and she has more children than I have. And my mother had just me. I have just my two girls and their older sister died and the rest of my grand children is all that's left of this (Pawnee name.) means - you know later on a man named Allen Moses. I said, "You are Pawnee." I said what (Pawnee name) mean? - He said, "That means a little girl." I said, "That's what my old great ancestor's name was.

(She was your great grandmother?)

My mother's grandmother.

(Your mother's great -)

Her mother's son is my grandmother's father. No - here's the old lady and here's the son, here's my mother and here's me and here's my children.

And this one -

(The old lady? Her son - your mother and you. Your mother - grand -)

She's my great grandmother.

(Your great grandmother?)

Yes. My great grandmother.

(Do you remember - excuse me?)

I never seen her. I never seen my grandfather.

(Do you remember any stories about the Tonkawas when they were living around Anadarko?)

Well I just heard they were kin to us.

(You know any stories about them. About any the trouble they had?)
