

They told me to go to Old Man Yellow Horse. That's the one that used to have-- they use to invite him all around in there. I went to several places out there. Yeah, Skevie, yeah, way around. And I come back, when I come back I went over there and told them Old Man Sun Eagle and then I told them and they thanked me for it.

(And this was all in one day?)

One day yeah. Maybe next day--because I'm tired of riding--next day go back and tell them.

OTHER INCIDENTS AND REMEMBERING

Mrs. Osborne: They use to all live in the country then.

And when they had that I can't forget that--went right here where something-- I told them that, they give me something good. That time we had big camp, took camp over there, had the trees around, like you say willows, way big circle. Right there they had, well, during the ceremony the men get up go to-- and when the Old Man White Eagle there sittin' in this--old man, Ramona, just going to doctor, just get around, he couldn't you know, walk, couldn't do anything. Before they sit down, Old Man Charlie/Allan, he brought the old man.

Mrs. Osborne: Them Skedee you know.

He brought the old man Charlie. And we went over after two boys, Sun Eagle and Old Man Shooter's and told them that he wanted that main pipe that they use (Pawnee word). They give it to him. They give it to Old Man White Eagle and brought Old Man White Eagle to meet him. Old Man White Eagle look (Pawnee word) like this. So that means that he give me a horse you know.

Mrs. Osborne: That's what Pop was telling you last night. They give that way you know. It's a pipe you know, and they give you a horse, or either a cigarette.

Yeah, I fixing to use that main pipe whatever they want to do, you know, they use that. They sit down and after that's over--after that's over next day, like they're going to have dance next day, I have to go one day, I tell 'em
