

Oh yeah, he was the main one, that one, Mona. He was Tony, his name was Nashuska Tony that's the one.

Mrs. Osborne: Now that one Grant, Paul Little Eagle, Paul said he's a Pawnee, but he didn't come down when the Pawnees did. He went around to another tribe. This one from--when the Pawnees come. And then he come down in later years, maybe about 30 years. That's what he said. He was one of the doctors. Yeah, that's the one--that's the one I heard of.

Mrs. Osborne: I guess that's deer--I guess that's what he imitated.

Yeah. Whole string of deer tails on him, you know. Have a whole deer tails behind him, what you call fawn like, little. All the deer tails and deer feet. And the tails you know. You see them feet.

GRAHAM YOUNG DOCTORS A CHILD - HELENA - SHE IS CURED

(Grant, Uncle Paul was telling me about Helena, about when she was just a little bitty baby she had pneumonia, real bad, and how Allie and Uncle Harm called several of you people to come out, several of you men to come out and sing. And I can't remember who he said this doctor was, it might have been John Walk.)

Mrs. Osborne: No, it was Graham Young, Sam Young's father.

(Graham Young. Well, were you out there when he doctored Helena?)

Yeah, I was out there.

(What happened, I mean what was--)

Mrs. Osborne: They had given her up.

I was the one waiting on her, like a (not clear) you know. Bring coals in there you know. And Old Man Young, he told me to get some coals, and have kinda of a heavy skillet and we had some underneath and I'd--like that, put them in there. ~~Small~~ one you know, so he went over there and got some coals and put in his mouth. Blew all over, Mona--

(Blew it on Helena?)

Yeah, all over her. Got through, he put them back. Then Helena got all
