

God, to others I'm just - God something else, see. But not many of them, I think right now, today, if I wanted to have something done, I think, I'd have 85 to 90 percent just go right along with me. Somebody said, the other day, said, "Well, our school'll probably close." Some of the younger boys said, that's moved out, "Well now, if we had houses to move in, that we'd sure move in and send our kids to school here." We realize that it's just one of those things. We're beginning to learn what we learned; the way he put it. Like an old man told another one the other day, he said, "Well, I've seen youngsters go to school, to different schools. They'd come out of Dave's school, you can tell, you know 'em, they know something, they're nice when they meet you. When they go to Locust Grove, they always said this, 'If one of them gets in a program of some sort, they'll always be there.' They're never shirking something that they get into." And I've had outstanding athletics, kids, girls and boys up there. In fact the matter, one year up at Locust Grove I had five of the starting basketball - girl's basketball team. Just like one having a full team starting. I've had boys, four or five boys on the club.

( You have no basketball - gymnasium or anything? )

No. It's just outside.

( Trained all yours out here on the dirt - yard. )

It's got to be done in September and October. It gets too wet after that, and cold.

( Well, that is an accomplishment. )

And we have from this school, we have approximately 90 something trophies in basketball. And we have the Sportsman Award trophy, and let's see. We not only do that . . . Somebody said one time, one of my local enemies said, "Well he can teach anything, he can teach basketball, teach school." But he don't know nothing about religion." And that's my sideline. I didn't tell.
