

this medium, he's got ready, and they call up there to pay him. Got a lot of ponies horses, blankets--want to ask him about this boy. So he went through his songs like this old man Aunkoi was telling about, singing his ceremonial songs. And then they heard him rattle the tipi telling about, rattle the tipi poles up there. He's come. They heard him rattling, and he's already come--he's setting up there. He say, "Here I come. I'm here. I'm here. What you want? What you want? I'm here." That's way he talk. My father and mother, they were all in there listening. "What you want? Well, here I am." Well, he got into little tipi. When he got into little tipi and rattled the bell in there, he knows he's ready to talk. Then this medium--this Prophet--commenced to ask questions. You could hear 'em talking in there. In the tipi. He said it was a weak voice--it might be, what you call it--transquilloquist? (ventriloquist) Could be that. I don't know. Anyway they heard (pause and Guy knocks on table with his hand) this thing talking in a different voice. "What you want?" "We want to find out about this man's son. Got lost up there on the buffalo hunt. And we want to know if he's still alive or where he could be found. Can you tell us where he's at? We want to know if he's alive." Yes. Yes. He's alive. He's still living. He's alive. You know where you butahered? And chase? Right now he's going west from there. He'll be traveling west when you find him. You just keep going west till you find him. If you hurry you'll catch him." So some of the mans got on their horse and went out there ~~it~~ it was. But at daylight, they found in the snow where he ride a horse. They could see his tracks. They follow these tracks and went up a high hill. They was on top of there and they saw him riding the other way. They cahsed him and overtake him and found him and brought him back home. They found him because of that medium. That was the boy's father that shot himself--that Buffalo Medicine Men doctored--Wilbert's father e'ote--the boy that was lost.

(Alonty was Wilbert's father?)

Yes. Wilbert was the boy that shot himself and the Buffalo Medicine Men doctored him. I told you about him.
