

(You don't have to nap long when you're driving, you could be off in a ditch or turned over?)

Heck no. If I drive a car and become where I get sleepy. I drive awful. Yes (not clear) and that's dangerous. A man up here somewhere was goin' by hisself and parked the car. Out there to sleep. And went to sleep and (not clear) man, somebody, didn't know who it was. Come down and shot him through the head. Now that's, I believe, I don't believe no one person ought to drive too far by hisself. Ought to be somebody with him. So if anything happen well maybe they can tell it. Now unless they shoot both of 'em.

(I guess they could both go to sleep but that's not as likely to happen is it?)

No, it isn't.

(Well, we've got Mr. Garfield Shoals on here. Let's ask, let's get Mrs. Shoals maiden name and all. What was your maiden name?)

Mrs. Shoals: My name was Finley.

(Finley?)

Mrs. Shoals: Finley. Addie Finley.

(Eddie. Addie. Addie Finley.)

That was your name wasn't it?

Mrs. Shoals: Now you said you wanted my name?

(Uh-huh. Her name. Uh-huh. Uh-huh. Well it's been real nice, real nice to visit with you.)

Mrs. Shoals: Real nice for ya'll to do that.
