

stop it, you know.

(Yeah.)

REMEDIES FOR VARIOUS NEEDS

Well, he'd take a peach tree limb switch- and scrape the inside of the bark with a sharp knife and put it in cold water, you don't have to boil it. It makes a tea. That will stop that vomiting. I have seen people boil it.

(Well.)

I have seen people stop it by using bluing - ball bluing - what you use with washing clothes.

(Yeah. Old-fashioned bluing.)

That'll cure snakebite too. You put some hog grease in with ball bluing and make a salve and wrap around tight. That's all you use. They use that on dogs and horses that get snakebit. They just use plain old hog grease and ball bluing and it sure cure it up. But you can't get that ball bluing now.

(No. I haven't seen any ball bluing in many years.)

My father used lots of things like cedar and like that. Yeah. Lots of things. And then there one called snake root. Do you know what that is?

(Un hunh. I know what it is. I've seen snake root before. (Words not clear)).

And Indian turnip. That's a good medicine too. My dad told me one time they had a big well over in Vinita and all horses drink there together. Some horses got sick. He went and got his horses and give them that and they didn't get sick and never did get catch no kind of disease, cold or
