over, that they might acquire another reservation in addition to the one they have. And so, they sent this man to Mexico to investigate the possibility of acquiring another reservation. And at the time he was down there, the president was, it was Mr. Aubigon at that time. They wanted to purchase this reservation down there. And of course there were various stories about how the things went at the time down there, and anyway they took the group of Osage to this country of Mexico. First, they went to the Mexican capital, which they were received by the President and he told them what they would. have to 35 and what they would have to abide by and ach as that. And they were told they would have  $t\dot{\phi}$ -1 don't recall if they would have to remounce their  $\sim$ citizenship or not, all the details I don't quite remember. I'm trying to get them at a later Agte, but the Mexican president told them that they would have to abide by the Mexican law, at that time. And they would be a manted a ecertain piece of land that would have to have on this reservation and establish a residence down there and so, but a later time the open, went lown and looked over this land that the president had offered them. And it seemed that the reservation lidn't quite suit their needs. It course it did in some ways, there was an abundance of water and page. But I think the impority of ' the land was in the desert and they -- of course, now we could look back and -say it would have been a good idea, but at the time, the Indian leaders thought that they didn't know where they could convert this deert into anything tertile which they would have to so on in later year. So they spent a great deal of time down there ponjering whether they should accept this land which was offered to them (not dear). But the Indian we the fixer was willing to buy i it if need be. It seems that they home pack and reported to the people that they had been lowp there and told them all I their problem an Nail that, the Indians were pendering, thanking what it would be will be a wide move to acquire this reservation. A sertain amount of these orage, would have go go down there, and settle, which was the problem at that time. And, so they,
