

Yeah just across the River.

(Now it's an old town too, isn't it?)

Yeah. Yeah.

(Is it older than Gore?)

Well I just couldn't remember whether it was or not. I just can't remember what they did.

(Was there a family by the name of Gore?)

No. Wasn't there a senator or something by the name of Gore?

(I think so.)

Well I think they named it after him.

(Uh-huh.)

I think that's what they told me. They named it after him. I think he's a senator, some big man.

(There used to be a salt spring, or sulphur spring in this country someplace.)

Sulphur springs.

(Sulphur springs.)

Yeah we lived up there. That's where dad's place,

(Yeah.)

SULPHUR SPRINGS USED FOR MEDICINE

And when they alloted the land. Walt got the sulphur spring.

(Well.)

And, yeah, we lived up there for years.

(Yeah, I've heard that many Indians that they used to go over there and drink that water and take some home for medicine. I guess it was good.)

It was good. It was -- we never was sick up there.

(Uh-huh.)
