

Yes.

(I just barely remember that.)

Yeah. Who was that somebody that talked about a pair of old button shoes? Never brought them back and the girls nearly everyone of them had a side saddle. But they had to go to waste. Quit riding.

CHURCH AT GORE MADE OF LOGS

(Not clear -- early day here. Did they have church here in Gore?)

Yeah. And out in the country.

(Well. Did they have a name for it?)

Well, White School house what we had it for the church house and school house too. Up there. You've passed that graveyard on up there haven't you?

(Yes. Uh-huh.)

Well there's an old house. Part of it is logs. It got so it wasn't big enough. And they built a box house on the end of it.

(Yeah.)

And part of it was built out of lumber and part of it log.

(Uh-huh. And that was your first school and church in this area.)

COMBINED SCHOOL AND CHURCH HOUSE

We went to school there and had our church there.

(I guess in later years they had other country schools around?)

Yes. And then down here at town, on this side of the track. There's a church house there. Old Doctor Cambell built that. And they had a school there and church there.

(Uh-huh.)

CEMETERY - HOME MEDICINES

(Not clear) -- The Still Graveyard the first ever I knowed of.

(Well, Still was the first one. Then after they had the White -- .)
