

I think that Mr. Maker, that he had something to do with it and he was lookin' for outlet for the tribe. But the tribe didn't look at it that a way. The tribe thought that he was trying to make investment for himself. I think that is the way they looked at it. So they didn't want to take to it. But I don't think he was. I think whatever was offered to him, it would go back to the tribe.

(Well, that's the way it does seem at times-----)
