

man's name his clan was the Bear clan. Bear clan, what the bear does during the night time, he goes around night, walks around at night-time, looking for something to eat. That's that Hom-way, he walks around that way. That's where the name originated. That's what I was told. I heard Simon say that, too. Simon Henderson. I heard that before, too.

(Uh-hum, yeah, I guess people had names like that.)

Right name, that's where it originated.

(Well, back there when you can remember, Otis, what kind of ration did they supply you with back in them days.)

I don't know, I understand had cattle, horses, wagon, harness and groceries.

(Well, did, was there much game around here then?)

I was born over here across Bright Gull Springs. Know where that is?

(No, where is that at?)

You know where Cleveland is?

(Yeah.)

Right straight across the river, right straight north.

(Yeah, up that, yeah I think I know where it is, now. Right there at that hill, isn't it?)

Yeah, under the hill there. There's a spring there. There's where I was born.

(Yeah I know where that is.)

OLD INDIAN DRESS

(In those days like, back there these people, how do you remember how people dressed, back there, we didn't have stores then, how did they dress?)

Like Indian clothes. Never did wear like these things, what they call them. Just Indian clothes like buckskin leggings, moccasins, shirts, all things like that, you know.

(Do you remember back there, did the Osages did all of them wear their hair like that?)
