

time at the top of the hill, you know. Had to feed hogs every morning.

I did sometime. Sometime had to milk, all the time had detail.

(That taught you something, I guess and kept you busy.)

Had to milk too you know.

(How about, when you was working like that, how did they feed you fellas?

Did they feed you all right?)

Yeah, they fed us good. They had everything you want. The food was good.

(Milk, I guess you had lot of milk, you had a dairy there,)

Yeah. Fruit, we had a orchard.

(Who done this cooking?)

They had cooks up there. The government hired the cooks. They had a bakery there, too. We done everything. I even washed, too.

(Laundry.)

Washed laundry. Wash dishes, everything something to do, I was on detail, too. Sometimes I had to work in the dormitory in there, fix beds, sweep, scrub, mop and everything else.

(I mean they treated you pretty good up there. Did many of these young boys, did they go home, or did they just stay up there.)

Oh they go home. We get to go home about once a month. Friday, Saturday, and Sunday. Sometime we didn't get to go home for a whole year. Folks stay way down here. Folks didn't get to go up there except payments. That's the only time we get to see our folks.

(I guess there's lot of you up there, and you knew about everybody.

You didn't get too lonesome, did you? They kept you busy.)

No. After school everynight everybody played. Played together, you know.

(When you was going to school up there what kind of religion did they want you to go to. I means did they ask you to go to church?)
