

paid that was all over the world. They never will find it.

(Never will.)

'Cause, you know, they went all over the world. Don't have any idea about it. It's there; they could get it if they was here. There's a lot of them they couldn't find.

(That's right, they couldn't find 'em. Don't know where they are.)

They don't have any idea. There's two of my relatives they never did find. It don't look like it could happen, does it?

(It don't look, but it (insaudible).)

The FBI knows about where everybody is at. They have a good record of 'em. If they have a record, a first class record, they could put their finger on it. They say in five minutes they could tell all about it. Whether you're guilty or not or where you're at the vicinity and they know lot of things.

(They sure do.)

SMALL PART OF CHEROKEE TRIBE LEFT IN CAROLINAS

It's part of the tribe that left there. Some of it, a small part of it. And they rounded 'em all up and drove 'em up here. Getting a bunch together. Well, I always wondered why they didn't get them Cherokees out. Till I was up there, till I know after I was up there and looked the things over, I know why they didn't get 'em. 'Cause them mountains, they get right up on top of them mountains. They didn't know how they got up there. They didn't have nothing but musket rifles. You can make a rock kill every man that tried to come up there, some of them mountains where they was at. And that is the reason they didn't get 'em out of there. They couldn't get 'em out of there.

(The country's too rough.)

Yeah, and they could live on nothing, you know. Tribe of Indians can live on nothing.
