

The fact, they are Indian all right. But they're short, squatty class of people.

(Yeah.)

I remember seeing some in a wild west show.

(Yeah.)

You know the wild west show with Ringling Brothers. (Not clear)--they call them. I saw some Eskimos. They had to keep them in cool room. Where they (not clear) --they would suffocate. They were in the side show. I paid and went in there and saw them. And they about that tall.

(Yeah.)

Looked like dwarfs. Only they was built more sturdy, you know.

(Not clear)--yeah.

HIS BIBLICAL INTERPRETATIONS

You see when they was building the Tower of Babylon, God changed the languages.

(Yeah.)

Where they couldn't go ahead and build the tower. And they had to stop. And those people scattered out. Well we know--we can name countries over in the east--the European country. Israel, one of them. And on up further on east, different names, and they all speak a different language. There's none of them speak the same language. And when these people come over here--the Indians came over here, I believe there was several different tribes. There wasn't one tribe. There was several. We couldn't tell just how many. But I've heard it now. Now I don't know whether it's right or not. There was a hundred and forty-four tribes of Indians. Now I don't know whether that's right or not. I've heard that. I read that in one of those blue pamphlets, books that they call the history of the Indians coming over to this country. There was about eight different books that was written.
