Washington City D. C.  
Gentlemen,

Your esteemed favor of the 20th inst was recd yesterday. I see plainly the reasons you set forth in your application for more contingent funds so I have just written to Treas<sup>r</sup> Brown in the shape of an order to send you four hundred dollars at once. I am glad to hear of the good fights you are making and am proud to say you have met with success so far, and hope you will finally win the fight. No news of importance every thing quiet and people busily engaged in putting in their crops. Spring has at last fully open and now a better prospect for farmers and stocks are now all safe & improving rapidly.

Be please to hear often from you all

Yours Truly & Respy
