و ما سلدهانات

Since the farm now owned and occupied by Mr. Percy Davis, Tonkawa, Oklahoma, embraces the old burial grounds of the Nez Perce Indians, who once lived here but were removed about 1883 or 1884, and which grounds are being farmed over, it would be extremely difficult for anyone, even those once familiar with it, to locate the exact boundary of the old burial grounds at this time. No stones or markers are to be found as evidence of interment. From the knowledge and information furnished by flifferent old time settlers in this part the location is shown on the plat attached hereto which is approximately the exact site of the old burial grounds.

The number buried in these grounds is roughly estimatone ed at/aundred. Little accurate information is obtainable, locally, remarding this tribe of Indians whose residence in this locality was rather brief. The tribe, it is said, suffered from some climatic disease or ailment that decimated their number at an alarming rate while living here.

They were removed to some reservation in the northwest country in the eerly 1880's, after which their reservation here was settled upon by the Tonkawa tribe.
