

The accompanying map shows the old Chisholm Cattle Trail with the major stations and relay stations from Ft. Reno to Caldwell, Kansas. At the major stations they kept from six to fifteen head of horses and at the relay stations they kept feed so in case the stage would have to lay over from the streams being high or other causes they would have feed for the horses.

At the bottom of the map is shown the cattle brand of Dan W. Jones.

THE CHISHOLM CATTLE TRAIL

Caldwell Kansas

206

Round Pond, Red Fork were major stations

Others were relay stations
