The information concerning the history of this cemetery was given by Wyly Beavers who has lived in this community for forty years. This c metery was started by some Cherokees before the Civil Wir. The names of the families that started the cometery is unknown. After the Civil War the father of Willda, Sand, claimed the land.

The Sands family used this as a famil, cemetery. After the death of Mr. Sands the son, William Sands, then claimed the land. At allotment the said William Sands allotted the land. After the death of said William Sands the land was sold to John Kelly, who now owns the farm.

5

The family constary was abandoned in 1907. The Government set side an acre for the cometery near this place. But somehow there was a mistake rale about this lind. The community used this land for a glumity constary, although Kelly paid the taxes on the land. Just a few years ago Kelly gave a deed to this land to a committee for a community cemetery. This communit cometery joins the Sands Cemetery.

## HUMMINGBIRD, CUS.

- 2 -

Most of the inscriptions on the old cometery are written in Cherokee nd the tombstones are comemade.

There are one hundred forty graves in the two cemeteries, but there are only thirty on the old cometery, ten of the inscriptions being:

Sarah J. daughter of Betsy Gole, Died September 16, 1895 Age 10.
