To the Sapulpa Light.

As it is a long way from here to where you shed your light and being from an Indian this may grace the waste basket. Yet we will endeavor to indict a few lines any way. Now is the winter of our discontent, is what some great man wrote and as this (Eufaula) is a democratic town it is Parker two to one, more or less now Judge Parker may be a good man and I guess is, and will run for the office of President of U. S. Of course, every man has his pets and is in hope of getting his man through the poles first best, and we believe the democratic party will give him their support and whoop 'em up Liza Jane, and prod the eagle and hear him squeal, and all of that, but we feel as if Rooster Feather, as Fus Fixico calls him, will look over his spectacles after election and see the great American people and hear them shout Rah for Rooster Feather and

the G. O. P. We don't know just what the above letters stand for unless it will be "Got Old Parker" or words to that effect our brother democrats seem to be jubilant over the nomination of Judge Parker, that is right, if the democrats did not jubilee over Mr. Parker he would not feel good and again if they did not whoop 'em up Liza Jane there would be no fun at the poles on election day.

Did you ever run a foot race? If so how did you feel to run with a fellow that could not reach you with a 40 foot pole and again when you run with a fellow that touched elbows with you for 95 yards of the 100 and then begin to go back of the corners of your eyes just a little, just enough to let you know that he had got a little short of wind then you know how one can sympathize with his opponent. We hope Parker will make a better run than the one just described, but he is said to be such a perfect man we fear he will fall short in the race. Our observation is that a too goody-a-good man does not always knock the block out when it comes to getting there on all four of his feet as president now there are lots of people who think R. F. should be butchered for chewing 'possum at one time with B. T. W., now it might be that there are lots of people in this great United States who do not know how an old time 'possum tastes. Now it might have been that

B. T. W. was the owner of the aforesaid 'possum, now all hunters republican, democrat or middle of the road men, sympathize with the president and will vote for him for the next president for his good taste as most of 'possum eaters would undergo most any crime, if crime it be, to eat 'possum with a colored man or any one else, eating 'possum with B. T. W. is not enough excuse to defeat the present incumbant so we look for our 'possum eaters of the democratic party and the Republican party to elect old Rooster Feather and excuse the president for having chewed 'possum with B. T. W. in an unguarded moment just when the old Virginie 'Possum and Alabama Yam was in season.
