DEPARTMENT OF THE INTERIOR
OFFICE OF INDIAN AFFAIRS

ESTIMATE OF GOODS AND SUPPLIES

Required for the Enchee Boarding Schl., at Sapulpa Okla
(Name of Indians or School.) (Name of Agency or Place.)
FOR THE FISCAL YEAR ENDING JUNE 30, 1915

The following information must be given according as this blank is used for Agency or School:

AGENCY

Names of tribes and number of each tribe for which this estimate is made: _____
Total, _____

Average number of Indians requiring daily rations—Able-bodied men, over 15 years of age, _____; women, and children not in school, _____; old and indigent, _____ Average value of rations per Indian, based on total number receiving rations, \$ _____

Amount to be expended during fiscal year for labor in lieu of rations, \$ _____

SCHOOL

Capacity of boarding school, 100
Number of pupils estimated for, 100 + 18 employees
Boys, 5 to 10, 9; girls, 5 to 10, 15
" 11 to 18, 36; " 11 to 18, 33
" 19 to 24, 5; " over 18, 2

Average attendance for year ended June 30, 1913, 111.4

Average attendance first quarter, 1914, 104.5

Average monthly enrollment first quarter, 1914, 105

Average monthly enrollment fiscal year 1913, 109

Boys, 5 to 10, 7; girls, 5 to 10, 12
" 11 to 18, 38; " 11 to 18, 36
" 19 to 24, 5; " over 18, 2

Number and capacity of day schools, _____

Average amount per pupil estimated for, \$ 75.87 $\frac{1}{4}$

This Enchee Boarding School is located _____ miles _____ of _____
(Agency or School.) (Direction.)

_____ and supplies, except coal, can be
(Here insert NAME of most convenient railroad station or boat landing.)
hailed to the Enchee Boarding School warehouse by School teams
(Agency or School.) (Agency or School teams; Indians or whites.)

at \$ _____ per hundred pounds. Coal can be hauled to the _____ by _____
(Agency or School.) (Agency or School teams; Indians or whites.)
at \$ _____ per ton.

Describe briefly on the following lines the average condition of the wagon road over which the goods are to be hauled, and give such other information as may be useful to this Office.

Asphalt pavement to corner of school tract of
thirty-seven acres.

This estimate must be forwarded in time to reach the Indian Office by November 1, 1913

(1)

James W. Graves
Superintendent.

INSTRUCTIONS FOR THE PREPARATION OF THIS ESTIMATE

1. Estimate, as far as practicable, for all the goods that will be needed for one year.
2. **SEPARATE ESTIMATES MUST BE MADE FOR SCHOOLS AND FOR EACH TRIBE HAVING SEPARATE FUNDS.**
3. Estimates must be submitted in duplicate. The two copies should be CAREFULLY COMPARED and made to agree in every particular. Mark one "Original," and the other "Duplicate."
4. Insert in the proper columns the information called for. The quantity, if any, purchased in open market as well as that furnished or to be furnished under contract, and by Indians, should be included, as it is essential to know *all* that has been allowed.
5. The quantity of each article on hand June 30, 1913, *must* be stated. Where a large quantity of an article is on hand, and an additional quantity is asked for, the condition of the quantity on hand, or the purposes for which intended, whether for issue or other purposes, should be stated in the column for "Remarks and justification," otherwise the quantity asked for is liable to be disallowed.
6. Compute the "Estimated total cost" of each article at the printed price and enter in the proper column. The "Estimated total cost" columns must be added, carried forward, and the aggregate given at the end. **Total of each class must also be shown.**
7. Specify clearly under "Remarks and justification" THOSE ARTICLES WHICH CAN BE PURCHASED OF INDIANS, otherwise the article or articles will be purchased under contract.
8. Opposite certain articles, sizes or descriptions have been printed in the column for "Sizes." Over these should be placed the quantities of each required. To avoid the purchase of articles of sizes that can not be used, particular care must be taken to give the sizes desired. As to clothing, be guided by the "Standard of sizes" on page 8.
9. This estimate blank has been prepared with great care and with reference to the requirements of the several sections of the country. With the exercise of a little care and judgment superintendents should be able to make a selection suited to the local conditions. It is not intended that any superintendent shall estimate for *every* article on the blank, but only for such things as are suitable and *actually necessary* for the conduct of his agency or school.
10. Estimates must be confined to the articles on this list as far as practicable; but if articles that are actually necessary can not be found therein, they may be asked for on the blank pages provided for the purpose at end of the blank, but the reasons therefor must be given. **POSITIVELY NO ITEM INTERLINED WILL BE CONSIDERED.**
11. Estimates for permanent improvements, such as buildings, etc., should *not* be made on this blank, but should be made the subject of special estimates.
12. Repairs for mowers, reapers, etc., also must be estimated for separately, and accompanied by a special report as to the number, kind, and condition of articles needing repairs, whether these are the property of Indians or not, and the care taken of them by Indians.
13. If any articles printed in this estimate are needed prior to July 1, 1914, call for them on Form 5-262, attaching complete justification, and **DO NOT LIST THEM HEREIN.**
14. The time fixed for sending in the estimates is very important.
15. Particular attention must be given to the shipping directions called for.
16. **IF, IN THE OPINION OF SUPERINTENDENTS, GASOLINE, KEROSENE OIL, OR ANY OTHER ARTICLE EMBODIED IN THIS ESTIMATE, CAN BE PURCHASED BY THEM IN CLOSE PROXIMITY TO THEIR SCHOOL OR AGENCY TO BETTER ADVANTAGE TO THE GOVERNMENT THAN UNDER CONTRACTS TO BE MADE BY THIS OFFICE, THE LOCAL PRICE SHOULD BE CLEARLY STATED IN THE COLUMN "REMARKS AND JUSTIFICATION."**
17. **FULLY AND SPECIFICALLY JUSTIFY REQUEST FOR ANY ITEM UNUSUAL IN CHARACTER OR QUANTITY THAT MAY BE ASKED FOR.**
18. **SHOULD YOU CONTEMPLATE THE SALE TO EMPLOYEES OF ANY OF THE SUPPLIES ESTIMATED FOR HEREIN, SPECIFY QUANTITY IN "REMARKS AND JUSTIFICATION" COLUMN, OPPOSITE THE RESPECTIVE ITEMS, AND GIVE REASON.**
19. **SPECIFY IN "REMARKS AND JUSTIFICATION" COLUMN WHICH ITEMS AND WHAT QUANTITIES ARE TO BE ISSUED TO INDIANS.**
20. **SPECIFY IN "REMARKS AND JUSTIFICATION" COLUMN WHICH ITEMS ARE REQUESTED FOR NOONDAY LUNCHES AT DAY SCHOOLS.**
21. **SPECIFY IN "REMARKS AND JUSTIFICATION" COLUMN WHEN SUPPLIES ARE ESTIMATED FOR INDIAN POLICE AND FOR FIELD MATRONS, GIVING THE NUMBER OF POLICEMEN AND FIELD MATRONS.**

ALLOWANCES.

The following tables show the *maximum allowance* of certain articles for each pupil. Agents and superintendents will be governed by them in making their estimates. When absolutely necessary to increase the allowance of any article, the officer making the estimate must give good reasons therefor in the column for "Remarks and justification."

Allowance for each Bed.

4 sheets, unbleached—for one year.	2 cotton blankets.
3 pillowcases.	1 counterpane, white.
2 woolen blankets.	

The blankets and counterpane ought to last several years.

Allowance for each Boy.

1 uniform coat.	3 jumpers (for boys in shops).	2 nightshirts.	4 pairs of shoes.
1 pair of uniform trousers.	3 suits of summer underwear.	1 cap, corduroy.	3 pairs of suspenders.
1 corduroy coat.	3 suits of winter underwear.	1 cap, military.	6 shirts.
2 or 3 pairs of corduroy trousers.	4 pairs canvas gloves.	1 hat, military.	1 duck reefer (for teamsters and farm boys).
4 pairs of overalls.	2 collars, white rubber or celluloid.	7 pairs of hose.	Necessary buttons, etc.

Allowance for each Girl.

1 winter uniform of blue or gray cloth (should last two years; 4½ yds. to each dress). 1 summer uniform of cotton goods (8 yds. to each dress). 3 everyday cotton dresses. 1 petticoat, black silesia (4 yds. to each petticoat; should last two years). 2 petticoats, gingham (4 yds. to each petticoat). 1 balmoral. 2 outing-flannel petticoats (3yds. to each skirt). 2 aprons of gingham or denim. 2 aprons of white crossbar. 6 suits of underwear, selected according to climate.	4 pairs of shoes. 7 pairs of hose (the fleece-lined cotton are for cold climates). 3 nightdresses of unbleached muslin (2½ yds. of 6/4 muslin to each garment) or of outing flannel (4 yds. to each garment). 1 pair of arctics or rubbers. 1 coat or cape (should last three years). 1 shawl, single or double (should last three years). 2 hats. 2 shirtwaists of Indian head muslin (3 yds. to each waist), for nonreservation schools. 2 underwaists, outing flannel (2 yds. to each waist), for cold climates.
---	---

Necessary quantities of buttons, tape, ribbons, pins, etc.

NOTE.—It is suggested that sufficient muslin, white, 48 x 48, 36-inch, bleached shrunk finish, "Indian head" or equal, can be saved from the allowance to make graduation dresses, where a uniform dress is desirable.

Opposite various items listed on the following pages the maximum allowance for each pupil is given. These allowances must govern in preparing estimates. Where an allowance is not stated, superintendents should estimate according to their best judgment.

Opposite the cloth the maximum allowance for each pupil is given.

Knit underwear is furnished for summer and winter wear for both sexes. This should relieve, to a degree, the pressure on the sewing room, so that seamstresses may have more time for practical teaching.

Outing flannel has been substituted for Canton flannel for use in colder climates.

Mexican straw hats will be furnished for boys and girls for farm wear. This will be the only straw hat. The cloth tam-o'-shanter is for girls of all ages for summer and winter wear. The Canadian toque, or stocking cap, is for the smaller boys and girls in cold climates.

In localities where the Indian children are not accustomed to wear rubbers, and suffer no ill results thereby, it is not expected that rubbers will be furnished.

Police.

Each policeman may be allowed annually, as required, 1 coat, 1 waistcoat, and 2 pairs trousers, summer weight; 1 coat, 1 waistcoat, and 2 pairs trousers, winter weight; 2 hats (cap may be substituted for 1 hat); rations, and forage for horse or pony in accordance with the regular ration and forage tables in Regulations, Indian Office, 1904; and in addition thereto a cotton or woolen blanket, a saddle, bridle, saddle blanket, revolver, ammunition, belt, holster, and badge. The horse or pony must be furnished by the policeman.

STANDARD OF SIZES FOR ALL CLOTHING.

UNIFORM COATS.

*Superintendents are also requested to specify on this estimate the kind or make of machine and sulky hay rake which has been demonstrated by farmers in the neighborhood to be best adapted to that part of the country, and to adhere to that machine. This course will result in uniformity and avoid purchasing repairs for so many different kinds of machines. Specify when articles on hand were purchased, present condition, make, and estimated period they will be serviceable.

Kind or make of machine: _____
Kind or make of rake: _____

84	D1330					botts.	Strychnine, nitrate, $\frac{1}{80}$ gr., in bottles of 500,	\$0.13			
85						botts.	Strychnine, sulphate, $\frac{1}{80}$ gr., in bottles of 100,	.06			
86						botts.	Same as above, in bottles of 500,	.11			
87						botts.	Tartar emetic, $\frac{1}{80}$ gr., in bottles of 100,	.06			
88						botts.	Same as above, in bottles of 500,	.10			
89						botts.	Terpin hydrate, 2 gr.; heroin, $\frac{1}{80}$ gr., in bottles of 500.	.29			
90						botts.	Zinc, phosphide, $\frac{1}{8}$ gr., in bottles of 100,	.06			
91						botts.	Zinc, sulphocarbolate, $\frac{1}{4}$ gr., in bottles of 100,	.06			
							COMPRESSED TABLETS.				
92	D1330					botts.	Acetanilid, $3\frac{1}{2}$ gr. (100 in bottle),	.08			
93						botts.	Acetphenetidin, $2\frac{1}{2}$ gr. (100 in bottle),	.10			
94		-	-	2	-	botts.	Antiseptic, nasal, in bottles of 500 (each tablet shall contain sod. bicarb., 5 gr.; sod. chloride, 5 gr.; sod. borate, 5 gr.; sod. benzoate, $\frac{7}{8}$ gr.; sod. salicylate, $\frac{7}{8}$ gr.; thymol, $\frac{7}{8}$ gr.; menthol, $\frac{7}{8}$ gr.; oil eucalyptus, $\frac{7}{8}$ gr.; oil wintergreen, $\frac{7}{8}$ gr.),	.20			
95						botts.	Bronchial (am. chloride $\frac{1}{8}$ gr., ex. glycyrrhiza 1 gr., oleo resin cubeb $\frac{1}{8}$ m., powd. hyoscyamus $\frac{1}{8}$ gr., powd. senega $\frac{1}{8}$ gr., powd. ipecac $\frac{1}{80}$ gr., balsam tolu $\frac{1}{8}$ gr.), in bottles of 500.	.20			
96						lbs.	Charcoal, 5 gr., in 1-lb cartons (each carton contains 1,400 tablets).	.21			
97		-	-	20	-	botts.	Corrosive sublimate, blue, for external use (formula: mercuric chloride corrosive $7\frac{3}{8}$ gr., citric acid $3\frac{1}{8}$ gr.), in bottles of 25.	.08			
98						botts.	Same as above, in bottles of 100,	.21			
99						botts.	Same as above, in 1-lb. bottles,	1.05			
100						botts.	Creosote, beechwood, 1 minim, in bottles of 100,	.06			
101						botts.	Same as above, in bottles of 500,	.17			
102						botts.	Same as above, in bottles of 1,000,	.31			
103						botts.	Cubeb, compound (powdered cubeb $\frac{3}{8}$ gr., dried ferrous sulphate $\frac{1}{8}$ gr., copaiba mass $\frac{1}{8}$ gr., venice turpentine $\frac{1}{8}$ gr., oil santal $\frac{1}{8}$ minim, oil gaultheria $\frac{1}{8}$ minim), in bottles of 100.	.08			
104						botts.	Same as above, in bottles of 500,	.22

NOTE.

Should physicians require any of the following articles, they must forward to agents or superintendents proper estimates therefor, the articles so called for to be incorporated by agents or superintendents in this estimate blank, viz:

E5157. Basins, wash, white enamel.
 D7353. Barley, pearl.
 D7323. Cornstarch, in 1-lb. packages.
 E5159. Corkscrews.

E5151. Dipper, tin, quart.
 E5156. Measures, tin, pint.
 E5156. Measures, tin, quart.
 D7816. Mustard, ground.

D3820. Pins, brass, M. C.
 D3820. Pins, brass, S. C.
 D3820. Pins, brass, F, 3½.
 D5820. Pins, safety, 1-inch.

D5820. Pins, safety, 1½-inch.
 D5820. Pins, safety, 2-inch.
 C5300. Spool cotton, assorted sizes.
 E7219. Thermometers, mercurial.

E7219. Thermometers, spirit.
 C5300. Thread, linen, unbleached.
 D4860. Toweling, linen (18 inches to each towel).—See item 17, Class 2.

These articles must be delivered to the physicians by agents and superintendents according to estimate.

The attention of physicians in the service is called to the fact that formaldehyde may be successfully used—without incurring any expense incident to the purchase of a generator—by observing the following instructions, viz:

Use ½ pound of permanganate of potash to 1 pound of formaldehyde solution 40 per cent.
 Take a large tin or galvanized-iron dish, holding about 5 gallons (such as is used in the household for washing dishes), pour in the formaldehyde, then add the permanganate of potash, and leave the room AT ONCE. The room must be as tightly closed as possible. Allow the room to be exposed to formaldehyde gas about twelve hours.
